

Understanding Your Voter Registration Card

Dear King County Voter:

Understanding your voter registration card is important and will help you make informed decisions about the issues that affect you most. This guide will help you understand the offices and jurisdictions you qualify to vote in.

When you receive your card, review it for accuracy and save it for your records.

State law now requires poll voters show identification. The card is an acceptable form of identification at the polls.

If you would like a registration card in an alternative language format (Chinese or English) or if you have questions, please call King County Voter Services at 206-296-8683 or email elections@metrokc.gov.
